CONTENTS

Prologue and Acknowledgements
L.P. Hansen (Trondheim, Norway) vi

Investigation of hepatic cytosolic proteins during parr–smolt transformation of Atlantic salmon (*Salmo salar*)
T.M. Bradley, C.T. Fay and K.M. Johanning (Kingston, RI, U.S.A.) 1

Transportation stress affects performance of coho salmon, *Oncorhynchus kisutch*
C.B. Schreck, M.F. Solazzi, S.L. Johnson and T.E. Nickelson (Corvallis, OR, U.S.A.) 15

Physiological and behavioural changes in the accelerated underyearling broodstock masu salmon, *Oncorhynchus masou*, during smoltification
N. Kasahara (Mori, Japan), H. Yamada, K. Soyano (Hakodate, Japan), J. Saito, M. Nagata (Mori, Japan) and K. Yamauchi (Hakodate, Japan) 21

Effects of rearing conditions on growth and thyroid hormones during smolting of Atlantic salmon, *Salmo salar* L.
G. Boeuf and J.-L. Gaignon (Plouzané, France) 29

Effects of photoperiod and various intensities of night illumination on growth and seawater adaptability of juvenile coho salmon (*Oncorhynchus kisutch*)
H. Thorarensen (Nanaimo, B.C. and Burnaby, B.C., Canada), W.C. Clarke (Nanaimo, B.C., Canada) and A.P. Farrell (Burnaby, B.C., Canada) 39

Effect of initial daylength on growth, seawater adaptability and plasma growth hormone levels in underyearling coho, chinook, and chum salmon
W.C. Clarke, J.E. Shelbourn (Nanaimo, B.C., Canada), T. Ogasawara and T. Hirano (Tokyo, Japan) 51

Effects of photoperiod on smolting and hormonal secretion in masu salmon, *Oncorhynchus masou*
N. Okumoto (Tochigi, Japan), K. Ikuta, K. Aida, I. Hanyu and T. Hirano (Tokyo, Japan) 63

Photoperiod and temperature affect plasma growth hormone levels, growth, condition factor and hypoosmoregulatory ability of juvenile Atlantic salmon (*Salmo salar*) during parr–smolt transformation
B.Th. Björnsson (Göteborg, Sweden and Berkeley, CA, U.S.A.), H. Thorarensen (Burnaby, B.C., Canada), T. Hirano, T. Ogasawara (Tokyo, Japan) and J.B. Kristinsson (Reykjavik, Iceland) 77

Effects of temperature and feeding on smolting and seawater survival of Atlantic salmon (*Salmo salar*)
W.W. Dickhoff, C.V.W. Mahnken, W.S. Zaugg, F.W. Waknitz, M.G. Bernard and C.V. Sullivan (Seattle, WA, U.S.A.) 93

Effects of photoperiod on growth and smolting in juvenile Atlantic salmon (*Salmo salar*)
R.L. Saunders (St. Andrews, N.B., Canada), J.L. Specker (Kingston, RI, U.S.A.) and M.P. Komourdjian (Sydney, N.S., Canada) 103

Some influences of photoperiod and temperature on opportunity for growth in juvenile Atlantic salmon, *Salmo salar* L.
J.E. Thorpe (Pitlochry, Great Britain), C.E. Adams (Glasgow, Great Britain), M.S. Miles and D.S. Keay (Pitlochry, Great Britain) 119

The effect of constant 12-hour light and simulated natural light on growth, cardiac-somatic index and smolting in the Atlantic salmon (*Salmo salar*)
T. Sigholt, T. Järvi and R. Lofthus (Trondheim, Norway) 127

Temperature and daylength as regulators of smolting in cultured Baltic salmon, *Salmo salar* L.
A. Soivio, M. Muona and E. Virtanen (Helsinki, Finland) 137
Smolting of two populations of *Salmo trutta*
A. Soivio, M. Muona and E. Virtanen (Helsinki, Finland) 147
The effect of spectral composition on growth and smolting in Atlantic salmon (*Salmo salar*) and subsequent growth in sea cages
S.O. Stefansson and T.J. Hansen (Matredal, Norway) 155
Comparative study of the energetic metabolism of Atlantic salmon (*Salmo salar*) parr and smolts
V. Maxime (Brest, France), G. Boeuf (Plouzané, France), J.P. Pennec and C. Peyraud (Brest, France) 163
The effect of salinity and ration level on growth rate and conversion efficiency of Atlantic salmon (*Salmo salar*) smolts
S.D. McCormick, R.L. Saunders and A.D. MacIntyre (St. Andrews, N.B., Canada) 173
Effects of dietary fatty acid composition on growth and smolting of underyearling masu salmon, *Oncorhynchus masou*
H. Ogata and T. Murai (Tamaki, Japan) 181
Alterations in lipid metabolism accompanying smoltification and seawater adaptation of salmonid fish
M.A. Sheridan (Fargo, ND, U.S.A.) 191
Effect of natural and artificial diets on seasonal changes in fatty acid composition and total body lipid content of wild and hatchery-reared Atlantic salmon (*Salmo salar* L.) parr–smolt
E. Bergström (Älvkarleby, Sweden) 205
Seasonal variations in osmoregulatory and respiratory responses to seawater exposure of juvenile Atlantic salmon (*Salmo salar*) maintained in freshwater
R.M. Stagg (Edinburgh, Great Britain), C. Talbot (Pitlochry, Great Britain), F.B. Eddy and M. Williams (Dundee, Great Britain) 219
Some physiological responses of Atlantic salmon (*Salmo salar*) exposed to soft, acidic water during smolting
G.J. Farmer (Halifax, N.S., Canada), R.L. Saunders (St. Andrews, N.B., Canada), T.R. Goff (Halifax, N.S., Canada), C.E. Johnston (Charlottetown, P.E.I., Canada) and E.B. Henderson (St. Andrews, N.B., Canada) 229
Responses of juvenile and sexually mature two-summer-old salmon (*Salmo salar* L.) to prolonged swimming
L. Forsman and E. Virtanen (Helsinki, Finland) 245
Growth hormone and thyroid hormones during Atlantic salmon, *Salmo salar* L., smolting, and after transfer to seawater
G. Boeuf (Plouzané, France), P.Y. le Bail and P. Prunet (Rennes, France) 257
Growth retardation (stunting) in coho salmon: plasma hormone levels in stunts in seawater and after transfer to fresh water
G. Young (Berkeley, CA, U.S.A. and Dunedin, New Zealand), P. Prunet (Rennes, France), T. Ogasawara, T. Hirano (Tokyo, Japan) and H.A. Bern (Berkeley, CA, U.S.A.) 269
Changes in plasma growth hormone and various metabolic factors during smoltification of coho salmon, *Oncorhynchus kisutch*
R.M. Sweeting and B.A. McKeown (Burnaby, B.C., Canada) 279
Plasma prolactin levels during smolting in Atlantic salmon, *Salmo salar*
P. Prunet (Rennes, France) and G. Boeuf (Plouzané, France) 297

Thyroidal response of Atlantic salmon to seawater challenge: predictor of growth in seawater
J.L. Specker, T.A. Whitesel, S.J. Parker (Kingston, RI, U.S.A.) and R.L. Saunders (St. Andrews, N.B., Canada) 307
Thyroid hormones in migrating Atlantic salmon
A.F. Youngson (Aberdeen, Great Britain) 319
Effects of thyroid hormones on phototaxis of chum and coho salmon juveniles
M. Iwata, T. Yamanome (Iwate, Japan), M. Tagawa (Tokyo, Japan), H. Ida (Iwate, Japan) and T. Hirano (Tokyo, Japan) 329
Migratory behavior of underyearling *Oncorhynchus tshawytscha* and survival to adulthood as related to prerelease gill (Na^+-K^+)-ATPase development
W.S. Zaugg (Seattle, WA, U.S.A.) 339
Effect of lunar-phased releases on adult recovery of coho salmon from Trinity River and Iron Gate hatcheries in California
R.S. Nishioka (Berkeley, CA, U.S.A.), E.G. Grau (Honolulu, HI, U.S.A.), H.A. Bern, R.J. Lin (Berkeley, CA, U.S.A.), P.M. Hubbell, A.C. Knutson, C. Hiser, D. Maria, M. Rightmier and W. Jochimsen (Sacramento, CA, U.S.A.) 355
Salmon ranching experiments in the River Imsa: effect of timing of Atlantic salmon (*Salmo salar*) smolt migration on survival to adults
L.P. Hansen and B. Jonsson (Trondheim, Norway) 367

Abstracts of some current studies on salmonid smoltification 375
